Embrace the Future of Interoperability Today

An All-in-one, Managed, Cloud-based Solution

The landscape of healthcare IT is changing rapidly, making healthcare data integration more complex and diverse. Over the next five years, drastic changes and growth will occur throughout the industry:

- Data will flow at a higher volume
- Diverse new sources of data will emerge
- New formats for exchanging and securing data will be required
- Solving workflow challenges will require expedited onboarding for trading partners
- Integration will require strategy, not just technical expertise

Corepoint One™ is a turnkey, cloud-based interoperability solution powered by the

industry's #1 ranked integration engine. It is completely managed by Corepoint's team of experts.

With Corepoint One, you leverage the decades of integration expertise from Corepoint Health professionals to completely manage and optimize your integrated environment in the cloud.

Corepoint One is a reliable, effective, and efficient solution that frees up your team from integration activities so they can focus on what they do best: improving healthcare.

Benefits of Corepoint One

Focus on Creating Value

Focus on creating value in your organization by leveraging integration rather than simply building and operating it.

Talent Management

Stop worrying about how transitioning employees will impact day-to-day operations in your engine environment.

We Do the Monitoring

Rest easy knowing your integration environment is monitored and managed 24/7/365.

Data Security

Receive the highest levels of physical, technical, and operational security measures to protect your data.

Corepoint Expertise

Rely on Corepoint Health's consultants to formulate your interoperability strategy and stay on top of the latest industry standards.

Predictable Cost of Ownership

Establish predictable costs that scale with your requirements scale.

Corepoint One Includes

- Hardware and infrastructure (servers, networking, storage, etc.)
- Supporting applications (Windows OS, SQL Server)
- Corepoint Integration Engine, the #1 ranked integration engine in KLAS 10 years running production and test environments
- Managed services, including platform management, application management, interface monitoring, and troubleshooting
- Professional Services for interface development, charged separately
- Optional strategic consulting
